SUMMARY

Full Stack Developer with 3+ years of experience building and deploying web applications using React, Next.js, TypeScript, Node.js, Express, and REST APIs. 1 year of UAE experience delivering business applications including e-commerce platforms, membership systems, and AI-enabled solutions. Experienced across frontend and backend development, authentication, database integration, third-party services, AWS deployment, and CI/CD.

WORK EXPERIENCE

Full Stack Developer | MMZ Holdings LLC - Dubai, UAE

April 2025 - April 2026

- Developed and deployed 5+ business applications, including e-commerce platforms, a membership portal, and an AI-powered calling agent.
- Optimized frontend assets, backend queries, and SEO, reducing page load times by 20–30% and improving overall application performance.
- Managed application deployments and production issue resolution using AWS and Git, while supporting automation and delivery of business-critical features.

Software Engineer | SkyWalk Global - India

Jan 2023 - July 2024

- Developed React-based dashboards and reusable UI components, contributing to responsive frontend features and maintainable application interfaces.
- Designed and developed REST APIs, contributed to API integrations, and refactored existing code to improve application maintainability and functionality.
- Participated in Agile/Scrum workflows and code reviews, collaborating with the development team on iterative feature delivery and enterprise API integrations using MuleSoft.

Full Stack Developer Intern | Kompetenzen Technologies - India

July 2022 - Dec 2022

- Built features for a web-based quiz application using Java, HTML, CSS, Bootstrap, JavaScript, and SQL, including backend API development.
- Refactored application components, added application logging, and contributed to frontend development and database-driven functionality.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, GSAP, Responsive Design, Zustand, Redux
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** PostgreSQL, MySQL, MongoDB
- **API & Integration:** MuleSoft Anypoint Platform, RAML, DataWeave, Swagger, API Security
- **Cloud & DevOps:** AWS, Azure DevOps, Docker, CI/CD, CloudHub
- **Testing & Debugging:** Jest, MUnit, Postman, Git, Chrome DevTools, React DevTools
- **Other:** WordPress, SEO, Java, PHP, Agile/Scrum, AI Integrations

PROJECTS

Nova | E-commerce Platform | PERN Stack, TypeScript

- Built a full-stack e-commerce platform using PERN and TypeScript, with TanStack Query for server-state management and Clerk for authentication.
- Delivered product browsing, role-based admin workflows, cart and checkout functionality, and Polar payment gateway integration.

Dwell | Real Estate Platform | MERN Stack

- Built a responsive real estate platform using MongoDB, Express.js, React, and Node.js.
- Engineered JWT-based authentication and RESTful APIs, supporting property discovery, image uploads, favorites, and role-based administrative access.

EDUCATION

Bachelors in Engineering

Electronics and Communication Engineering, APJ Abdul Kalam Technological University
