WORK EXPERIENCE

Full Stack Developer

April 2025 - April 2026

MMZ Holdings LLC - Dubai, UAE

- Led end-to-end development and deployment of 5+ in-house web applications.
- Optimized frontend assets and backend queries to achieve 20-30% faster page load times, directly improving user engagement and retention.
- Executed technical SEO strategies to maximize organic search visibility and discoverability

Software Engineer

Jan 2023 - July 2024

SkyWalk Global - India

- Developed and integrated 10+ enterprise service APIs leveraging MuleSoft for complex systems.
- Contributed to full API lifecycle including RAML-based design, development, testing, and deployment.
- Utilized Azure services for cloud storage, CI/CD pipelines and automated deployment workflows.

Full Stack Developer Intern

July 2022 - Dec 2022

Kompetenzen Technologies - India

- Contributed to development and optimization of web application modules utilizing Java, JavaScript, and SQL, boosting system reliability and performance.
- Participated in debugging, code reviews, and testing activities, contributing to improved code quality and reduced production issues.

RECENT PROJECTS

Dwell – Real Estate Platform (MERN Stack)

- Engineered a responsive property listing application featuring secure user authentication and dynamic filtering capabilities.
- Implemented real-time messaging between users using WebSockets for inquiries.

Kryptek – Crypto Analytics Dashboard (Next.js, TypeScript)

- Developed a responsive crypto analytics dashboard using Next.js and TypeScript with SSR.
- Consumed external financial APIs to process and stream live cryptocurrency market data feeds.
- Built dynamic charts and UI components for visualizing cryptocurrency performance.

EDUCATION

Bachelor of Technology

Kerala Technological University, Kerala, India

Electronics and Communication Engineering
